ATTN: [REDACTED]25X1
Subject: [REDACTED]

Request for relief of accountability for GFP.

25X1
The attached letter from [REDACTED] requests relief of accountability for property identified in previous correspondence as residual from subject contract. Noting that such property was in fact erroneously scrapped.

I would like your comments concerning this development and have attached a copy of the original inventory and other related correspondence, for your review. In light of your request to have the property moved here, and the overall performance of the contractor I would hesitate to consider dropping the matter.

The request for additional funds will be considered as a separate subject.

Susp: 28 Nov. 69

Most of the equipment listed can be used in a variety of ways in the laboratory as well as on many types of developmental projects. I find it difficult to believe that it was scrapped.

25X1
I agree that the current value of the equipment listed is questionable. However, if [REDACTED] did erroneously scrap the material, it should in no way relieve them of accountability. I recommend that the Contracting Officer negotiate a settlement more equitable to the government.

Declass Review by NGA.

Attention:

25X1

Subject: Close Out of Contract

Gentlemen:

Enclosed herewith are three (3) originals of a Final Report of Inventions and Subcontracts, a Summary of Final Costs (Attachment A), and Final Public Voucher No. 23.

25X1

25X1

25X1

Reconciliation of the total costs incurred, presented in Attachment A, states a variance of [redacted] over the contract costs [redacted]. Of this variance, [redacted] is an adjustment of G&A expense in 1964 through 1967 and [redacted] is an overrun cost incurred in support of Printer No. 1. It is requested the subject contract be amended to incorporate the adjustments to G&A and the overrun costs. All other terms and conditions remain the same.

25X1

In reference to your instructions of 5 November 1968 regarding the distribution of residual material, the engineering breadboard (Printer No. 2) will be scrapped as requested. The other items listed in my letter of September 13, 1968, valued at [redacted] were erroneously scrapped when this Division moved its storage facilities to a new location. Since the current value of these parts is questionable and they were in fact scrapped, it is requested that [redacted] be granted relief of their original value.

25X1

If additional information is required to facilitate the closing of this contract or should you have any questions regarding the data submitted herewith, please feel free to contact me at [redacted]

Attention: [REDACTED]

Subject: [REDACTED]

Gentlemen:

Attached, as requested in your letter of 15 May 1968, is a list of residual material for the Printer against which a "Stop Work" order was issued.

25X1

25X1

In anticipation of an offer from the Government to sell this material to [REDACTED] for use on other programs, we asked our technical people to inspect all items. It was, however, concluded that this material is of little value or use to [REDACTED]

25X1

Considering this evaluation and to facilitate final disposition of this material, [REDACTED] proposes to purchase all of the listed items for one (1) dollar with the stipulation that they are to be scrapped.

Sincerely yours,

25X1
